Application data Inquiry

In order to make a proper pump selection, below data must be informed. Therefore, please fill in empty boxes.
Properties marked (*) are mandatory.

Current pump unit

Pump designation:	<input type="text"/>
Serial no:	<input type="text"/>
Electrical motor:	<input type="text"/>

Electric conditions

Frequency*	<input type="text"/>	Speed:	<input type="text"/>	<input type="text"/>
Voltage:	<input type="text"/>	Power:	<input type="text"/>	<input type="text"/>

Pump conditions

Flow*	<input type="text"/>	<input type="text"/>	Flow according to drawings <input type="text"/>	<input type="text"/>
Inlet (suction) pressure (Will be assumed to 0 if left blank)	<input type="text"/>	<input type="text"/>		
Outlet (discharge) pressure*	<input type="text"/>	<input type="text"/>		

Fluid conditions

Specific fluid: (If this is known, only indicate either of viscosity or temp)	<input type="text"/>	<i>Ex. SAE 30, ISO VG 46 etc.</i>
General fluid: (If specific is not known)	<input type="text"/>	<i>Ex. HFO, MDO, LO etc.</i>
Viscosity*	<input type="text"/>	<input type="text"/>
Working temperature	<input type="text"/>	<input type="text"/>
Pump duty	<input type="text"/>	

Application (Please describe the application)
